

The 2000 World Artistic Roller Skating Championships Springfield Ma.

Announcing the 2000 World Artistic Roller Skating Championships, at the Civic Center, in Springfield, MA.

Artistic Roller Skaters from all over the World will be converging on Springfield, MA September 4 through 17, 2000 at the Springfield Civic Center.

These athletes have spent countless hours learning and practicing their routines and moves in an attempt to attain perfection.

Each athlete, Singly or as a Team, has qualified for this prestigious event by placing First, Second or Third at their country's National Championship. There will be skaters from across the United States, as well as several from the Massachusetts area entering this competition. Other skating athletes from many other countries around the world will join them in friendly competition, each vying for the title of "World Roller Skating Champion".

While our sport does not as yet enjoy Olympic participation, it Does provide a healthful and wholesome activity for many people, both young and old.

Roller Skating, in it's many forms (Artistic, Hockey, Speed, Extreme etc.) provides a great alternative to the other, less socially acceptable activities that many young people find themselves exposed to.

Complete Photo coverage, including Video Clips, is being provided on the Internet by the Roller Sports Web, a Non-Profit group of rinks around the world that are dedicated to promoting the sport.

The RS Web Main Hub site will feature the "Photo Tour of Worlds" with the above pictures, etc. at www.rsweb.org

Please join us at that address and see what Roller Skating can be like at the competitive level?

Thank you

David Festa, Founder and President, Roller Sports Web International
